Professional Summary

Detail oriented Developer with hands on experience in building scalable and secure full applications on web, mobile and desktop. Strong foundation in programming, APIs, databases, and software development best practices. Experienced in collaborating with cross-functional teams, debugging production issues, and writing clean, maintainable code.

Technical Skills

Programming Languages : TypeScript, JavaScript (Node.js), Python(basics)
Frameworks & Libraries : React, Express, Nestjs, Expo and Next.js
Databases : MongoDB, SQLite, MySQL, PostgreSQL
Tools & Others : TypeORM, Docker, VS Code, Android Studio, Git, Github, Figma, Servers and SEO
Soft Skills : Active listener, Teamwork, Problem solving and Time management

Work Experience

Software Engineer (Intern) - Infronex IT Products and Solutions, Coimbatore **September 2025 - March 2026**

- Developed and delivered production grade applications across web, mobile, and desktop platforms.
- Deployed and managed applications on production servers, handling configuration, monitoring, and basic troubleshooting.

Full Stack Developer (Intern) - Mobility Intelligence Softwares, Coimbatore. **June 2025 – July 2025**

- Built a scalable and secure backend for a property management product with a strong focus on performance and reliability.
- Developed a responsive, animation-rich landing page aligned with product goals and branding guidelines.

Junior Developer Trainee (Intern) - Machenn Innovations, Coimbatore **October 2023 – January 2024**

- Designed and optimised 20+ 3D models to enhance visual quality and interactivity across projects.
- Supported development and testing tasks while collaborating with teammates to ensure timely delivery.

Web Developer (Intern)- ICT Academy, Chennai (Virtual) **August 2023 – September 2023**

- Built and maintained websites and web applications using modern web technologies.
 - Contributed to debugging and improving performance and user experience in team driven projects.
-

Projects

Vulnerability Detector using Local AI: Built an offline AI-powered code security analysis system using local ML model to detect OWASP vulnerabilities and generate controlled patch suggestions using Llm's.

MAuth: Built an all-in-one, framework agnostic authentication npm package features with ready to use JWT handling, session management, and other common auth utilities.

MotorMods Pos: Developed a billing and inventory management desktop application as a freelance project using Tauri and React, with a companion mobile PWA for data sync via Firestore.

SriAng Matrimony: Developed and maintained a full-stack matrimony platform, including backend logic and frontend features, and successfully deployed and managed it on a cloud VPS for reliable production use.

Your Property Keeper: Built a scalable backend and a responsive landing page, focusing on security, performance, and UI reliability.

Zephyrus: Built a React Native application using Expo, JWT-based authentication, and MongoDB, optimized for security and robust cross-platform performance.

Education

M.Sc. Computer Science (80.53%)

2024 – 2026

KG College of Arts and Science, Coimbatore, Tamil Nadu

B.Sc. Computer Science (73.67%)

2021 – 2024

KG College of Arts and Science, Coimbatore, Tamil Nadu

Achievements & Certifications

- Outstanding Performer, Open Source Hackathon - Dev Day'24, Metazord, KGiSL Institute of Technology, 2024.
- MongoDB Node.js Developer Path - MongoDB, 2023
- AWS DeepRacer League 2.0 Bootcamp - KG College of Arts and Science, 2023.
- Web Development & PHP - KG College of Arts and Science, 2023.
